03

Our construction process/flow

01 Design

Get to see what the project will look like when it is finished.

02 Preconstruction

We put together a project management team and schedules

03 Procurement

The labor, equipment, and building materials are procured.

04 Construction

Time to dig in the dirt, pour some concrete, bend some rebar, and fire up the welder.

05 Post construction

A final walk-through inspection to check that everything was finished correctly.
